Hi Jay,

[REDACTED] from Tetra Tech emailed that LIT Industrial wants Tetra Tech to report all HW removed from the site, including the HW removed by Clean Harbors under contract to the County. [REDACTED] contact info is below.

Subject: FW: Former SoloPower Multnomah County Contact

[REDACTED]

Mary Fritzmann, DEQ's Hazardous Waste Generator Annual Reporting Coordinator, said that Multnomah County has taken responsibility for some of the wastes. To her, it sounded like there was waste still in the machines and a poly tank. I find myself unsure whether the facility contact meant to say for reporting purposes, as I thought the wastes had been responsibly removed.

I've asked Mary to clarify that and get back with me with a contact with the County as she pursues the required annual reporting information and fees.

Jay

Subject: Former SoloPower Multnomah County Contact

Hi Mary,

If you find a contact with the County for disposal and reporting of the hazardous waste the County contracted to take over, please let me know. I am interested in clarifying their responsibilities in assuming control of the remaining wastes. Again, I thought that the County was going to let LIT Industrial dispose of it all!

Jay
